Outpatient Ostomy Services Locator

UOAA is excited to announce the completion of a two-year advocacy project with the unveiling of a new resource, the first-ever online locator to improve access to ostomy care. This new directory of outpatient ostomy services allows medical professionals, patients and caregivers to locate outpatient ostomy care near their specified geographical area. Nowhere else can the ostomy community find this type of user-friendly comprehensive list.

This project, led by UOAA Advocacy Manager Jeanine Gleba, would not have been realized without many certified ostomy nurses responding to the call to contribute their facilities to our database and the tireless hours of passionate volunteers who assisted her.

Find Outpatient Ostomy Services Near You!

Link to the search page:

<https://www.ostomy.org/outpatient-ostomy-services-locator/>

To help ensure ostomates receive continuous care following stoma creation and/or revision surgery, UOAA has developed the first-ever “Locator” to improve access to care. Some practices/clinics only see patients who had their surgery in their acute care facility. Some require a referral. Generally, there are guidelines for each facility and they are subject to change over time.

Search for outpatient ostomy services by city, state, or zip code. Along with the name and address, if additional information was provided or visibly public on a listings’s website such as hours of operation, it will be shown with the listing. This is not an all-inclusive list.

Your Own Virtual Certified Ostomy Nurse for 30 Days!

In the healthcare system today, too many ostomates are underserved and do not have their regular access to a certified ostomy nurse they need for a successful health journey. That's why UOAA has partnered with The Wound Company - to bring certified ostomy nurses to ostomates and their caregivers virtually, wherever they may live across the United States.

For a one-time direct payment of \$125, The Wound Company's certified ostomy nurses provide people with personalized support via Zoom, text SMS and email for **30 days** - in the privacy of their own home.

CERTIFIED OSTOMY NURSES WILL VIRTUALLY:

- ✓ Assess a person's ostomy in one comprehensive telehealth assessment by Zoom in the beginning of the 30-day period.
- ✓ Assist ostomates and their caregivers in choosing supplies and recommend pouching options that fit the person's lifestyle and health goals.
- ✓ Help ostomates and their caregivers prevent and manage skin irritation, rashes, and other complications around the ostomate's stoma.
- ✓ Answer ostomy questions from ostomates over email or text SMS for the 30-day program.
- ✓ Provide personalized education, care, and support throughout the program, including tips on diet, nutrition, hydration and intimacy.
- ✓ Follow up with one additional comprehensive telehealth assessment during the program when necessary.
- ✓ Provide a summary of the assessment and recommendations for ongoing care after each telehealth assessment.

The fit is
the difference
between asking for help
and doing it yourself

SenSura® Mio Convex Flip has a star shaped barrier to provide a secure fit over curved areas, even when bending and stretching.

A curved star-shaped barrier has petals that hug the body with less creasing or folding.

Fit zones in the center of the rim increase flexibility right around the stoma and optimize fit and flexibility for movement.

Neutral-colored, discreet quiet pouch is designed to stay unnoticed - even under white clothing.
